7 Information for walking pilgrimage

The season

Best season of walking pilgrimage is from in early March that you feel chilling yet to late April and from in early October that the heart remains to Mid-November.

In particular, plums, peaches, rape blossoms, cherry blossoms, ect. Are blooming in bloom.

From the sunrise to the sunset is basically the pedestrian walkway.

Walking in the dark is dangerous. And it is said that evilspirits will arrive.

Spring is a season where you can walk fairly well in a faint warmth as the time of daytime becomes longer. The comfortable temperature is 10 to 20 degrees.

Autumn has a shorter daytime than Spring. Also, as a countermeasure against cold, disposable warmers (sticking type) are most effective.

Walking and Shoes

Even those who do not routinely walk, people can walk fun until about 20 Km. When it exceeds 20 Km, the pain of the leg suddenly becomes severe. We listen to the voices that there was not much effect from practicing who walks 10 Km every day in advance every day for one month in advance.

We recommend that you go up and down stairs of buildings of 3, 4 times and 5 floors in a few times once a week, about 30Km. I think that it will be pretty muscle pain at the beginning, but it will be the best exercise.

Shoes are bigger than one size as big as you usually get used to. It is about the size of the five fingers move in the shoes. Socks with 5 fingers are also effective for countermeasure against blisters. If a foot dances in shoes it will cause injury.

Laces of shoes can be fixed by loosening their toes and connecting near the ankle slightly stronger. Adjustment of shoelaces is also effective each time, such as flatland, uphill, downhill.

Pilgrim way is a road where more than 90 % are paved, so it places a considerable burden on the heels and soles. Basically, walking shoes are good. Climbing shoes are considered unsuitable. It is also important to choose shoes, but it is also good to put the inner fitting to your feet. When you feel a little uncomfortable while walking, stop at once, we recommend you to check your shoes off once. Because there are things that can not be recovered from just a bit of pain, please be careful.

About a week of walking start, you will consciously walk more slowly than usual as a practice period. After that, it becomes the foot of the walking pilgrimage which can endure a long distance.

The walking rhythm varies from person to person, but basically if you walk for 1 hour (about 4 -5 Km), please rest your legs down for about 5 minutes.

Also, when you have a break during the day, it is effective for countermeasures to take out socks and dry their feet. By taking a break, in the long way, eventually the walking distance of the day will be longer.

Either way, your legs hurt. You will either get used to pain or stop giving up and stopping walking.

Do not push yourself, you must persevere until your legs get used to it.

Baggage Ruck sack

When staying at inn, there is a coin laundry along the pilgrim way to the inn, so you can change one clothes. In case of a backpack, we recommend a backpack of 35 to 45 liters, about 25 to 35 liters when dividing, weighing down (within 10 Kg). Also, since you walk with heavy baggage, we recommend that the backpack be carried by the waist without being carried by the shoulder.

Tighten the shoulder harness until it fits the body with the backpack with hip belt.

As much as possible backpack at the position on the back, if you tighten the chest support lightly feel, also relieve tired way.

8 **Measures against rain**

Pilgrim way does not have trees unlike mountain walking, so it catches rain all over when rain falls.

It is not an exaggeration to say that backcover is meaningless. Also, waterproof tools may get so wet that can not be trusted. Backpack body, inside the backpack will get wet, so please protect inside the backpack with a waterproof bag. Be sure to subdivide your luggage at the inner and into smaller garbage bags. By doing this, it is possible to prevent rain from bleeding on an important stampbook or changing clothes.

About the difference between rain wear and poncho kappa. As rain weather wears both up and down, it is effective as measures against rain. However, it is heavy and bulky, and it takes time and effort to wear, take off, and dry. Conversely, poncho kappa is lightweight, it is convenient for desorption time, dry ect. However, it may be useless when the wind is strong.

IF it is used properly according to the season, we recommend rain wear as early spring, autumn, as warm clothes, poncho kappa is spring and early autumn. Be sure to dry all the waterproofing tools so as not to impair the original waterproofness before packing.

Shoes will be soaked. When you finish walking the day you can dry some shoes using old newspaper. For the first time, please roll old newspaper, stuffed from toe, stand up shoes and dry. With one shoe you need about 2 to 3 old newspapers, about 5 with one pair.

You will take out the newspaper once in about 20 minutes after putting the first time. You pack the new old newspaper like the first time. The second time, please remove again after about 1 hour. Finally you will reinsert the old newspaper as well for the time as well. Keep your shoes dry as you please while keeping old newspaper until the next morning.

A little humidity remains, but it will dry to the extent that you do not mind if you start walking.

9 **Lodging, Inn, Homeless**

When you arrive at the inn, or, when you have finished walking the day, let's remove the stain of staff which is Koubou-Daishi's avatar. When staying at the inn, bring a staff to your room and put it on the upper seat such as a floor.

On the last page of this book, I introduce "☆☆☆ with two meals a night with my friends" but there is also a bad place not to stay on the way.

Inn, Zenkoyado, Tsuyadō, etc., where the pilgrimage gathers are a treasure trove of information, such as the pilgrim way, the place you want to watch out and the inn, so let's not miss a talk with other pilgrims and inns.

When doing a homeless, you must bring garbage home so as not to disturb locals. Let's discard at convenient places such as convenience stores, supermarkets, inns and other places.

If you have a private house near the campus location, please do not hesitate to call him a word.

Besides bad weather, even if it is late you will withdraw at 7 o'clock, and you would like to leave it cleaner than when you came.

For the tent, the self-standing ceremony is convenient as the place of setting where pegs can be hit is limited on the pilgrim way.

In addition, there are many installations where there are roofs such as the pavilion, we also shower rain and night fog ect. It is recommended not a normal fry tent but a lightweight single tent or shelter.

Relationship

Walking pilgrimage is a two person trip with Kōbō-Daishi. In addition to walking quietly by alone, it is the pilgrimage that you talk to yourself, such as pilgrim, who is accompanying you, local people, and others. It is important to have relationship with them.

When walking, when you say hello to the passing people, you can briefly greet each other by bowing lightly while walking slightly in front of you.

While there are many opportunities to receive o-settai during the pilgrimage, when you entertain him, thank you for giving thanks to the virtue that you gained during the pilgrimage training, hand out your osame-fuda (name-slip).

I do not talk much about past history of myself, past occupation, personal talks ect in the pilgrimage, I will not ask. Please think that it is an opportunity to look back on yourself in the wonderful relationships with many people away from this world for a while in the pilgrimage.

It would be greatly appreciated if you could try the pilgrimage that you fully feel the warmth of O-Shikoku.

Formerly, it seems to have been used as a grave marker for pilgrims who passed away along the journey.

Roles:

1. When you stop for a rest, make sure the staff is taken care of before yourself.
2. When you reach a place to stay, wash the end of the staff and place it in the room alcove (tokonoma).
3. There is a belief that Kōbō-Daishi might be sleeping under a bridge, so do not tap the staff when going over any bridge.
4. The end of the staff will fray over time. Do not cut with a knife, however using a stone or other blunt object is allowed.

The Heart of the *Prajna-paramita* (By Tycnatto Han)

The Bodhisattva avaalokita,
 while moving in the deep course of perfect understanding,
 shed light on the five skandhas and found them equally empty,
 no object of mind;
 Listen', Shariputara, form emptiness, emptiness does not differ from form.
 The Bodhisattva avaalokita,
 the same is true with feelings, perceptions, mental formations, and consciousness,
 Here, Shariputra, all dharmas are marked with emptiness;
 they are neither produced nor destroyed,
 neither defiled nor immaculate, neither increasing nor decreasing,
 Therefore, in emptiness there neither form,
 nor feeling, nor perception, nor mental formations, nor consciousness;
 no eye, or nose, or tongue, or body, or mind, no form,
 no sound, no smell, no taste, no touch, no object of mind;
 no realms of element (from eye to mind consciousness);
 no interdependent origins and no extinction of them (from ignorance to old age
 and death);
 no suffering, no origination of suffering, no extinction of suffering,
 no path; no understanding, no attainment.
 Because there is no attainment, the bodhisattvas,
 supported by the perfect of Understanding, find no obstacles for the minds.
 Having no obstacles, they overcome fear,
 liberating themselves forever from illusion and realizing perfect Nirvana.
 All Buddhas in the past, present, and future, thanks to this Perfect Understanding,
 arrive at full, right and universal Enlightenment.
 Therefore, one should know that Perfect Understanding is a great mantra,
 is the highest mantra, is the unequalled mantra,
 the destroyer of all suffering, the incorruptible truth.
 A mantra of Prajñā-paramitā should therefore be proclaimed.
 This is the mantra:
 Gate gate paragate parasamgate bodhi svaha.'

"Recommended route" Western route along the Pacific Ocean While enjoying magnificent scenery along the Pacific Ocean. Via Kuukai Minokoshi seashore of Tatsukushi, the Kuroshio approaching Kanouzaki cape lightinghouse, extraordinary sacred place Tsukiyama jinja Shrine related with Kūkai, Ōtsuki pilgrim way, about 73Km. **The west-round course walking along the wonderful Pacific Ocean is full of charm.**

Many pilgrimages walk on the return course (1), but I recommend return course (3) Tatsukushi-Mihara village route becomes lonesome road from Shimokawaguchi, there are not such as signposts, shops, and vending machines until Mihara village. In the past, crime was reported. For women, recommend the above recommended route.

When weather is rough, return course (1). After rain, you may not be able to cross the river on the Ooki beach. Please walk through the national road.

The Nouse pass route is the climbing of the roadway to the Shin-Mayumi Tunnel.

Just right

You are exactly for you
Face body name family name you are just right for you
Both greed wealth parents and children my son's daughter and her
grandchildren that is exactly right for you
Happiness and unhappiness joy and even sadness are exactly good
Your life you walked was not bad or not good it is exactly good for you
To go to hell or to go to paradise where you went is just good for you
You do not need to be conceited no need to despair
There is neither above nor below
Even the day to die is exactly right
Two people's life with Koubou-Daishi It can not be just good
Leave it all to Buddha and Koubou-Daishi
Thankfully ThankFully
